it would benefit india and all indians to examine the reality of extremism within their own country before pointing to pakistan. any talk of action by indians inside pakistan will not be taken lightly. i can assure all here of that. if india thinks it is dealing with pakistan from 1971 or some other time, forget about it. india will be humiliated and cannot risk the long term effect to its economy and much touted superpower status. the creeping hindu fundamentalism and terrorism has to be dismantled before it threatens world peace.

There is no point of waiting and seeing the terror strike again, we as a Indian and victims of terror attack needs to take proactive measures where we can beforehand dismantle these operations and if required get into any territories to kill terrorist who are planning these types of plots. India Govt should ask or I would say force Pakistan to handover all possible underworld dons and terrorist to India and failing to which lead to a war against Pakistan....we all against war butr isn't it a war going on where we Indian don't even know and unprepared. I salute all those brave Indian army, police and navy personal for fighting against terrorism and saving us.
