A three-member team of the Crime Branch, investigating the Mumbai carnage, has left for the US to meet FBI officials and share details in connection with the probe into the attacks, a senior police official said on Tuesday.

The three-member team headed by Additional Commissioner of Police Deven Bharti left for the US on Monday night, a senior crime branch official said.

"They will discuss and share the details of the probe and also take inputs from officials of FBI, the US probe agency, that will help us in the investigations," he said.
